RE: MB Docket No. 14-57, Comcast-Time Warner merger

The proposed merger between Comcast and Time Warner Cable would create a massive media conglomerate unlike anything we've seen before and lead to decreased competition and higher Internet and cable costs for tens of millions of Americans. It would also be a huge threat to the free and open nature of the Internet. The proposed merger is not in the public interest. I urge you to stop it from moving forward.

Sincerely,

Matthew Hagman
